Re: FCC ID changes

Dear Sir/Mme:

Certain assets of H.A.B.I.T. Research, including the product line covered by this filing, have been sold to LoJack Corporation and a new LoJack Corporation subsidiary company has been formed to carry forward with the business. This new company is LSC Locator Systems International Corp. The new company will be continuing to build the transmitters and is requesting a new FCC ID for the product, under the new company Grantee Code.

Original FCC ID: TKE50

Original grant date: 06/08/2007

New FCC ID requested: WDL16L

This transmitter is being manufactured and consists of the same hardware and software as the previous version. There have been no changes to the transmitter except for the labeling.

The transmitter is being tested to the same standards and specifications as the original device that was certified by the FCC.

Yours sincerely,

Andrew Loen, P.Eng.
Senior Engineer
Locator Systems
